

"Survival and Settlement" Escape Room Instructions

Welcome to Goulbourn Museum's "Survival and Settlement" Escape Room experience. The goal of this activity is very simple: to have fun and utilize your puzzle-solving skills, while learning about how the Irish 100th Regiment of Foot settled in Upper Canada. The 100th Irish Regiment of Foot's settlement experience is very similar to countless others who arrived in early Upper Canada, and this is an interactive way to explore settlement in this region.

There are two options for you to play the escape room - an entirely online format using Google applications, or a multimodal format with PDF printouts and a Google Form. The content is identical - the delivery method is up to you!

What you will need to be successful

Online Format:

- The [Google Form link](#) (you can play the entire escape room using only this link!)
- A calculator (more challenging if you do not use)
- Instructors: [The Puzzle Answers links](#)
- Tablet or computer (less compatible with Smartphone)

OR

Multimodal Online/PDF Format:

- The [Google Form link](#)
- The Puzzle PDFs
- Instructors: The Puzzle Answers PDFs
- A calculator (more challenging if you do not use)
- Scissors
- A writing utensil
- Tablet or computer (less compatible with Smartphone)

Instructors

- Cut up and prepare Puzzle #4, if using the Multimodal format
- Set a timer for 30 minutes, with an optional 10 minute extension
- Only provide the participant with the next puzzle when the current puzzle has been solved.

GOOD LUCK!

Goulbourn Museum staff members are always happy to answer any questions you may have. Please do not hesitate to contact us at the information below.
